BETTER THAN EVER

PMTS made a strong return in 2025. Registration, attendance, exhibitors and other key metrics were up across the board compared to 2023.

Precision machining professionals gathered once again in Cleveland to share insights, explore new technology, and learn about process innovations that impact shops of all sizes. The strong turnout and positive response from both attendees and exhibitors highlight the industry's momentum and set the stage for PMTS 2027.

PARTICIPATION HIGHLIGHTS*:

Registration:	6,661
Attendees:	4,227
Exhibitors:	2,103
Students:	331

*Includes data from the co-located Parts Cleaning Conference.

No other show shares such creative and valuable ideas that can positively impact a business. PMTS is a perfect opportunity for production manufacturers to band together, share ideas and rebuild *Made in America!*"

— **RANDY S.**

President, Revolution Precision Machining

Measuring value through exposure to a diverse cross-section of precision machining professionals.

16,620

TOTAL ATTENDEE BADGE SCANS

An indication of genuine buyer interest and an effective way to build your sales lead pipeline for continued success.

6,611

EXHIBITORS ADDED TO ATTENDEE PLANNERS

Attendees planned their show and proactively bookmarked exhibitors of interest to pursue once the doors opened.

57,319

DIGITAL EXHIBITOR SHOWROOM VIEWS

Meaningful touchpoints throughout the online portal and mobile app created value for sponsors and exhibitors alike.

PMTS attracts an active audience of accomplished professionals involved in the A – Z of precision machining.
